TTD 617-349-4805

Increased Construction Activity Starting in June

Residents and businesses located on Sidney Street, from Henry Street to Pacific Street, will notice an increase in construction activity on the Cambridgeport Roadways & Stormwater Improvements project starting this month, June 2004. Modern Continental (MCC), the City's contractor, will be working from Henry Street to Erie Street performing a variety of water, sewer and roadway improvements. Neuco Construction, a subcontractor for NStar Electric, will also be working along Sidney Street. Initially, Neuco will be confined to working on Sidney Street between Pacific Street and Erie Street. However, Neuco will eventually upgrade the electric utility distribution system all the way down Sidney Street to Henry Street.

Parking

MCC will post "No Parking" signs in the area of their work zones 24-hours before the construction activity begins. Please refrain from parking in these areas during the posted work hours – 7:00 a.m. to 4:00 p.m.

Traffic

During this time, the two existing travel lanes on Sidney Street may be periodically reduced to one lane of alternating traffic for isolated work zones between Henry Street and Pacific Street. Police detail officers will be on-site to monitor and direct traffic.

If you have any questions about this work, please contact John McGillicuddy, Resident Engineer for the MassHighway Department, at (617) 492-2736 and/or Judy Kavanagh, Community Relations Manager at (617) 498-4710.

Sincerely,

Owen O'Riordan, P.E.
Assistant Commissioner of Engineering
